RFP for IBM 360/195 Replacement

STATINTL

The IBM 360/196 computer has not provided the level of availability to adequately support the on-line GIM system. A more reliable replacement can be obtained within the budget levels approved for the 360/195. RFP 15-77A for a replacement for the 360/195 computer was mailed to 9 prospective bidders. Bids are due in by COB 16 September 1977. []

Cancellation of Delivery of Fourth IBM 370/168

STATINTL

A memorandum was sent to Office of Logistics requesting cancellation of delivery of the fourth IBM 370/168 computer [] This machine would not have provided sufficient capacity throughout its five year life span. []

Memorandum to Office of Logistics for Planning Purposes

A memorandum was sent to OL for their information and planning, which summarizes additional personnel and computer installation space and utilities needed by ODP through FY-83. []

CAMS

We are planning to provide a limited version of CAMS in the GC-03 Center during the power outage scheduled for 10 and 11 September. Service will be provided to four [] terminals and four Headquarters terminals. The CAMS data base will be in a retrieve-only mode, allowing no update capability. There will be no message traffic processed against this GC-03 version. []

SAFE

[] briefed the DCI, A/DDCI, D/DCI/IC, A/DDI, A/DDA, and [] on the results of their SAFE/ADISS Commonality Study. The organizational structure proposed was again not accepted and the differences in analysis at the two agencies was questioned.

STATINTL

The SAFE Source Selection Board reviewed the revised vendor ratings resulting from Office of Research & Development presentations and responses to questions by the vendors. Best and Final submittals are being requested to permit final evaluations next week.

Planning for a joint project has been initiated with the DIA in anticipation that direction will follow the SAFE/ADISS Working Group paper. The Director of DIA is indicating the intent to totally merge their project into a joint SAFE project management office. [redacted]

GIMS System Availability

The availability of the GIMS Production System on the IBM 360/195 computer was 76% during the period 15-21 August. The unavailability of the GIMS Production System was due to a series of hardware and software failures. [redacted] STATINTL

Training

A three day course, Basic VM, was completed by 20 students. A two day course, Batchmon, was completed by 14 students. ODP Administrative Staff sent each ODP secretary a list of suggested training courses for her. The recommended courses were based on her position in the organization, her present record of training, as well as what she might be doing in the future. The dates for these courses over the next several months were also included to assist the secretary and her supervisor in planning her training. [redacted] STATINTL
